Benefit

Qualification

Summar

Problem

- Random code snippets pose threat to unsuspecting web users
 - people have a risk of running malicious or insecure commands
- Often difficult to look through man pages for relevant documentation
- Sites like explainshell.com make this easier, but there's still a barrier
 - Have to copy, navigate to another page, paste

Benefit

Qualificatio

Summar

Literature Review

- explainshell.com and man pages
 - very comprehensive
 - hard to find new things to learn
- bashoneliners.com
 - documents bash one-liners
 - sorts by popularity
 - limited by what is posted to site
- linuxcommand.org
 - beginner's tutorial to the command line environment
 - hard to quickly grok
- tldp.org
 - incredibly widespread documentation on all things Linux
 - again, hard to quickly grok
